

## Things you will need to join Homenetmen Shant Chapter

You will need a color portrait photo of the member – similar to a school photo (no sunglasses or hats).

Image on left is not acceptable, it is a scan of the whole page area instead of just the picture area. The subject's head is too small proportionately to the picture. The background is not bright nor clear. Most important subject has sunglasses.

Image on right is perfect for submission. No glasses, bright background and subject's head size is perfect for printing ID cards.

This image will be used for the member ID card, do not use copy of driver license or passport photo. If you don't have one we can take a picture in our office.

A copy of the member's birth certificate (preferred) or driver's license or passport for identification.

To make this process easier have both of these ready on your computer, to drag or upload them from your computer directly into the appropriate box.

If you have any questions, please call our office, (818) 248-4680, during scheduled hours.

**Step One:** Click here to create a user profile on Homenetmen.net, if you have already created a profile just login.

Previous Next

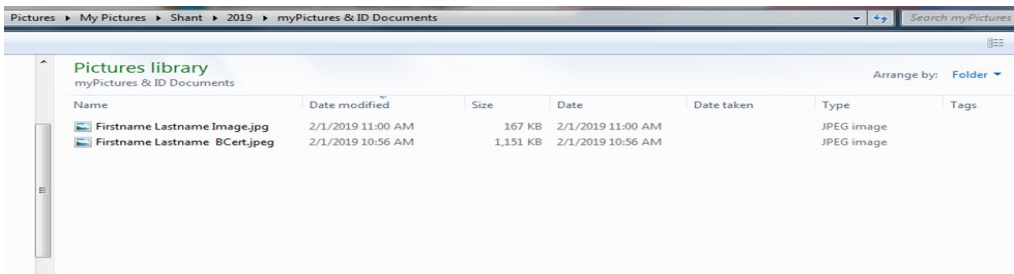

Fill in all fields.

For photos & identity documents, either drag them from your computer into each box or click inside the box that changes color to dark tan to see this message.

Drag and drop an image here  
or click on the **Browse** button

Click on the "Browse" icon to upload each seperately

Navigate to the folder that has your saved picture and birth certificate. If you clicked on the “Photo” box, upload the image, if you clicked on the “Identity Document” box, upload the birth certificate.

The instructions at the bottom of the picture is for either the “Crop” box or the picture.

Image on the right is perfect for cropping and uploading, the one on the left has no space above the head so it must be cropped with that in mind.

Just be sure to click on the desired layer and manipulate to enclose the face, like this.

Crop it such that the face is fully visible and there is some space around the head, like passport pictures. The picture on the left, did not have much space above the head, so it was cropped to the max above the head. The other sides proportionately.

The picture on the right is cropped perfect. Don't worry about the crop size.

When done, click on the "Save" button in the top right corner of the window.

To start over, just click on the "X", to choose another picture, click on "Browse", to change brightness of picture, click on the icon with 3 horizontal lines for the "more..." menu
